Profile

Design Manager with 10+ years in product design and 3 years leading a team of 12 designers across ~30 client accounts at ArcTouch (AKQA Group). I grow people with clear career frameworks, build the structures that let a design team scale, and still go hands-on when needed.

- Co-wrote the seniority framework for the Product Design vertical; built mentoring programmes, workshops, onboarding and AI-ready knowledge sharing.
- Helped grow the design team from 20 to 26, running portfolio reviews, interviews and hiring calibration for ~40 candidates.
- Held allocation above the 80% target every year; partnered with leadership on pitches, estimates, audits and staffing.
